### UNDERSTENCIL #401

#### PRODUCT DESCRIPTION:

UnderStencil SmartWipes® is a cleanroom grade wipe for cleaning under stencils between prints. This wipe effectively removes all types of medium with or without solvents. It keeps undersides clean and free from contamination between prints to prevent smearing of PC boards. UnderStencil wipes are lint-free and dust-free, resists tearing and shredding, and are ideal for ultra-fine pitch solder paste printing, particularly with automated screen and stencil printers. This non-woven fabric is a blend of polyester and cellulose hydrospun to provide a fabric of high strength without the use of binders, starches or thermal bonding techniques and is electrostatic dissipative (ESD). Cleanroom Grade: Class 100.
